- Frameless Shower Enclosures
- Framed Shower Enclosures
- Glass Table Tops
- Glass Shelves & Hardware
- Glass in Interior Wall Openings
- Shower Enclosures with Custom Sandblasted Designs

Our services include measuring and verification of field conditions. Quality and service are stressed in all of our installations.

# About Nelson Glass

Nelson Glass Company first opened its doors in September of 1966 as Nelson Supply Company; founded by Fred A. Nelson Sr. and Frank A. Dickinson. Both founders brought years of industry experience with them to the company.

In September of 1975, Fred A. Nelson Jr., CEO, joined the company upon retirement of his father. In the late 1970's, Nelson Glass increased its efforts in the contract glazing market, providing glass and glazing in substantial commercial construction projects.

Residential glazing has been provided since the company's inception. Products include custom mirrors and shower enclosures. The present management team is the finest in the history of the company and has over 190 years of combined experience in the glass industry. Nelson Glass is poised for growth in the future and takes pride in its reputation for customer satisfaction.

# Questions?

If you have any questions or need help deciding what solution best fits your next glass or mirror project, please call us at 205.322.1627 for assistance.
